Distributed Cognition and Educational Practice 13 cognition being 'in the head', as a property of the individual mind. Most of the current psychological research is either explicitly or implicitly based on

Distributed Cognition and Educational Practice

Have offers a cogent critique of conventional cognitive theory, turning for an alternative to recent social theory, and weaving a compelling synthesis from elements of culture theory, theories of practice, and Marxist discourse. The result is a new way of understanding human thought processes, a vision of cognition as the dialectic between persons-acting, and the settings in which their ...
