Musimathics The Mathematical Foundations of Music Volume 2 Gareth Loy Foreword by John Chowning The MIT Press Cambridge, Massachusetts London, England

Musimathics The Mathematical Foundations of Music Volume 2

This book is the first thoroughgoing study in any language of the philosophy of music history. Drawing on competing philosophies of history throughout the ages, from the Enlightenment to the French structuralists, from the German idealist tradition to Russian formalism, the late Carl Dahlhaus applies the thoughts of these various schools to the specialist requirements of music history and ...

Foundations of Music History by Carl Dahlhaus - Cambridge Core

This landmark collection explores the origins and foundations of music education across five continents and considers: • the inclusion of music as part of the compulsory school curriculum in the context of the historical and political landscape
